We offer a hotel with a cozy and unique medieval atmosphere, which is located in the very heart of Old Tallinn, close to the Viru Gate, surrounded by museums, art galleries, churches, shops, in the vicinity of lively restaurants and trendy nightclubs.

The historic building of the hotel, exquisitely decorated with elements of the medieval era, stonework, forged details, wooden ceiling beams and stairs, as well as a summer terrace, is comfortably located on a quiet cobbled street in the house of a merchant's family. The hotel has undergone major renovations and the building has been converted into a modern hotel, while maintaining its historical appearance. The rooms are decorated in an exquisite medieval style, with quality materials, parquet floors and wooden furniture.

The hotel is conveniently located within walking distance from the central Viru square, close to the Baltic railway station, 2 km from the Port of Tallinn and 5 km from the airport.

There are also other offers for hotels in Tallinn's Old Town.
